MOO! = Contains Dairy WHT! = Contains Wheat NUTS! = Contains Nuts
All soups are VEGETARIAN

Alkaline Ionized Antioxidant Water is now available at Berrybrook Farm!

Benefits of the Alkaline Ionized Water include:

--- **Helps Support pH Balance** – Due to our typical diet and poor elimination of waste products, most people have a pH that is too acidic. Drinking Alkaline Water can help bring about pH Balance, making it harder for diseases to gain a foothold in your body! Did you know that many bottled waters and all Reversed Osmosis water, including Dasani and AquaFina, as well as distilled water, are very acidic?

--- **A Powerful Antioxidant Effect** - Ionized Water provides a similar effect to some of the most powerful Anti-Oxidants available! This water does not replace your supplements; it just works to help them benefit you more by creating greater absorption of nutrients.

--- **Superior Hydration** – Ionized Water is Micro-Clustered at your own tap! Micro-Clustered means that the molecular grouping of the water has been reduced electronically through ionization. Instead of a large cluster of 10 to 16 molecules, common in tap and bottled water, Ionized water contains only 5 to 8 molecules, making it possible for the water to more easily pass through your cell walls for better absorption and hydration. Alkalized Ionized Water can hydrate you up to 5 times better than tap or bottled water.

--- **More Oxygen** - As water is ionized, it provides a rich source of bioavailable oxygen to your cells, allowing up to hundreds of times more oxygen to be carried to all parts of your body. Most people quickly notice more energy from the increased oxygen to their brains!

--- **Helps Detoxify Your System** - The Micro-Clustering helps your body absorb the Alkaline Water, and the negative charge of the water more effectively flushes Acidic Toxins at the cellular level, often resulting in weight loss and a cleaner, healthier colon.

--- **The health benefits of this water are supported not only by science, but also by numerous testimonials. We are already receiving excellent feedback!**

--- **Be sure to stop by to refill your water supply every 2 to 3 days (alkaline ionized water loses some of its beneficial properties within 36 to 48 hours). We hope that you will stop by soon and try some Alkalized Ionized Water! Your body will appreciate it!!! Only \$2.49 per gallon (a fraction of the cost of many bottled waters). Bring your own container or purchase one here.**

Ionizers Are Now Available For Purchase From Berrybrook Farm!

If you are interested in purchasing an Ionizer for your home or business, you can order your machine through us. Let one of our staff know you are considering a

purchase and they will share with you why we chose the Ionways line of machines to offer to our Customers!

As always, we want you to know how much we appreciate our customers and want to provide you with only the Highest Quality Products!

Ionways Machines:

Isis- \$1495.00 – A well built, single filter unit, suitable for one or two people.

Athena - \$2195.00 – The Latest Technology, Best Performance, Duel Filters, Automatic Cleaning, and Modern Styling. This is the machine we use in our store.

Delphi - \$2695.00 – The First Fully Featured, Under Sink Water Ionizer. Attractive Styling and No Counter-Top Clutter!

You can purchase these machines on line at our website. Financing is available on all models. Owning your own machine will give you significant cost savings. Your average cost per gallon over 5 years currently falls into a range of only 75 to 85 cents. This includes the cost of the machine, filters (currently about \$120.00 every 1000 gallons), electricity and water. Quite a bargain!!!
